

Sweatshirt Program **Additional Requirements**

Below are some additional resources that may be helpful to have available for executing a successful Sweatshirt Program:

Financial: It should be possible to execute a successful Sweatshirt Program with little or no cash layout on the part of the church. As the program is driven by individual sweatshirt sales, church members have an opportunity to support it directly through the purchase of a sweatshirt.

Facilities: The only facilities needs for the Sweatshirt Program would be sweatshirt storage at the church during sales, and at the school during distribution.

Partnerships: Third-party partners such as alumni groups or the PTA may help make it possible for the church to hit its sales goal in cases where church membership alone is not large enough to support a Sweatshirt Program.

Transportation: Sweatshirts can take up a lot of space and require many boxes, thus making them hard to transport. Having a team that handles transportation of goods can be a great help. (See Volunteer Organization document under "Process.")
